Hi Sherry-

Thanks for sending this along. I touched base with Carolyn to fill her in on the discussion you and I had this week. Would it be possible for you to send us a copy of the letter Region 5 sent to the Kozaks?

Also, I let Carolyn and Lela know that not much has been spent under your current Tower Standard task order, since only sampling has been done. They reiterated that no additional money (beyond \$100k) can be added to the task order without a new action memo. I told them that you are aware of that and that you also mentioned the need for additional money to support USTrac. We don't yet know what our FY 16 budget is yet but you should definitely ask for the additional funding you need.

Carolyn also mentioned that she is going to be scheduling the tribal RSOs very soon.

Judy,

Please see the short email below related to an inquiry my Superfund counterpart made on behalf of the Lac du Flambeau related to the natural resource damage assessment.

Just thought you might like to see these.

Sherry

Hi Kristen, I am following up on our conversation from last November about potential for a Natural Resource Damage Assessment (NRDA). I have talked to several people and the best person to follow up with is Charlie Chandler (phone number below, copied above) who is the BIA contact for NRDA. I hope that is helpful to you. If I hear anything more that could help, I will be sure to let you know. It was nice to have met you. Ann Whelan

**Subject:** WI Northwoods UST case?

Hi Ann,

I've been able to touch base with Charlie Chandler (BIA; 202-208-5037) and Annette Trowbridge (FWS; 612-713-5104) (both cc'd above) about the potential case you mentioned last week. I think they both need better information than I was able to provide to determine whether their bureaus would be able to get involved. (Especially knowing if there is a viable RP.)

Thanks and best,

Lindy
